

Dear Sirs,

My name is Charles Fields, I am President of Vista Del Lago. I am writing to you today to let you know that We The People are against this project. It will be a fire hazard, it will destroy parts of a National Park, it will be a hazard to our airport and an eyesore for the people that live here. This will lower property values even more in this area, which has already suffered more than many other areas in Sothern California.

Even if they were to put all the power lines underground, I think the people would be against it. The lake levels are already too unstable without draining the lake at night and pumping it back durring the day. The local economy depends to a great extent on the quality and useability of the lake. Take that away and you may kill the city of Lake Elsinore.

Thank You,
Charles Fields
